

## FACTS ABOUT PANCREATIC CANCER

Pancreatic cancer is  
Canada's **FOURTH BIGGEST**  
cancer killer

Receives less than  
2% of the funding  
through general  
cancer research

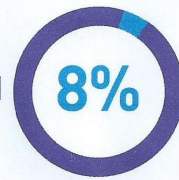

**12 PEOPLE** are newly diagnosed  
with the disease each day

Pancreatic cancer  
affects **MEN** and  
**WOMEN** equally

**20% OF ALL  
PATIENTS**  
are diagnosed by  
an emergency  
room physician

Currently only  
**EIGHT PERCENT**  
of those diagnosed  
survive beyond  
**FIVE YEARS**

For those diagnosed in time  
for surgery their chance of  
surviving beyond five  
years increases

**EARLY  
DIAGNOSIS  
SAVES LIVES**
